

Jazzy®

614 HD

The Jazzy® 614 HD features patented Mid-Wheel 6® technology and Active-Trac ATX Suspension for an outstanding level of performance, maneuverability and tight turning radius, all in one heavy-duty package. Independent front casters raise and lower as needed to compensate instantly for changes in terrain, making transitions easy. The Jazzy 614 HD features dual enhanced in-line motors for greater efficiency, torque, range and performance. Independent drive wheel suspension allows each drive wheel to be independently supported by a dynamic spring-strut dampening system, reducing the vibrations caused by driving surfaces. All-around performance indoors and out over most surfaces, inclines and slopes, makes the Jazzy 614 HD an excellent heavy-duty power chair choice.

The information contained herein is correct at the time of publication; we reserve the right to alter specifications without prior notice. Speed and range vary with user weight, terrain type, battery charge, battery condition and tire pressure. Due to manufacturing tolerances and continual product improvement, length, width, turning radius and ground clearance can be subject to variance of + or - 3%. Special order seats or non-standard dimensions will not be fold-flat and depth-adjustable.
