1. Pride FDA Class II Medical Devices are designed to aid individuals with mobility impairments.

2. Varies with user weight, terrain, battery type, battery condition and tire pressure.

3. Does not include seat or battery weights.

4. Tested in accordance with ANSI/RESNA, WC Vol. 2, Section 4 and ISO 7176-4 standards. Results derived from theoretical calculations based on battery specifications and drive system performance. Testing conducted at maximum weight capacities. This specification can be subject to a variance of +10%, -5%.

5. Battery weight may vary based on manufacturer.

6. Seat weight included (because tools are required to remove seat). Battery weight not included.

7. Seat weight included. Unit does not disassemble.

8. Due to manufacturing tolerances and continual product improvement, this specification can be subject to a variance of + or - 3%.

Dimensions listed are for power base only. Overall measurements will vary based on seating and accessory selections.

9. With and without standard cushion.
