Innovative Technology

Jazzy Air® 2 features seating that elevates 12” in just 11 seconds to primary standing height, allowing exceptional access to your environment. Extra Stability Technology mechanically stabilizes the power base when elevated, creating ultimate security to safely drive up to 4 mph at walking height.

Mid-Wheel 6® Technology with Active-Trac® ATX Suspension offers the highest levels of performance and maneuverability while easily and smoothly climbing transitions and obstacles. This patented technology allows the active front casters to both lift when climbing a threshold, while also dropping down for stability when descending.

In-line motor technology offers enhanced torque, battery range and reliability for the most dependable performance.

Consumer-inspired and real-world proven, Jazzy® offers innovative technologies you can count on.
