Innovative Technology

Jazzy Air® 2 features seating that elevates 12” in just 11 seconds to primary standing height, allowing exceptional access to your environment. Extra Stability Technology mechanically stabilizes the power base when elevated, creating ultimate security to safely drive up to 4 mph at walking height.

Mid-Wheel 6® Technology with Active-Trac® ATX Suspension offers the highest levels of performance and maneuverability while easily and smoothly climbing transitions and obstacles. This patented technology allows the active front casters to both lift when climbing a threshold, while also dropping down for stability when descending.

In-line motor technology offers enhanced torque, battery range and reliability for the most dependable performance.

Consumer-inspired and real-world proven, Jazzy® offers innovative technologies you can count on.

1. Due to manufacturing tolerances and continual product improvement, this specification can be subject to a variance of + or - 3%. Dimensions listed are for power base only. Overall measurements will vary based on seating and accessory selections.
2. Without front rigging.
3. Varies with user weight, terrain, battery type, battery condition and tire pressure.
4. 40A, PG 6-key VR2 required with Power Elevating Seat Option.
5. Does not include seat or battery weights.
6. Tested in accordance with ANSI/RESNA, WC Vol. 2, Section 4 and ISO 7176-4 standards. Results derived from theoretical calculations based on battery specifications and drive system performance. Testing conducted at maximum weight capacities. This specification can be subject to a variance of +10% ~ -5%.
