# LIFT CHAIR POSITION GUIDE

## ACHIEVABLE POSITIONS

Lifted

Seated

Reading

Napping

Relaxing

Sleeping

Trendelenburg

Zero Gravity

### 2-POSITION TV RECLINE

Lifted • Seated • Reading

The 2-position TV recline is achievable on all Pride® Lift Chairs. This is a comfortable position for performing many relaxing activities including reading, watching TV, working on your tablet or for conversation with family and friends.

### 3-POSITION FULL RECLINE

Lifted • Seated • Reading  
• Napping

The 3-position full recline is available on most Pride® Lift Chair models and puts you in a position ideal for napping or relaxing.

### INFINITE-POSITION SLEEP RECLINE

Lifted • Seated • Reading  
• Napping • Relaxing • Sleeping

The infinite-position sleep recline is perfect for taking a nap – whether quick or extended – or even for a full night's sleep. Infinite-position Pride® Lift Chairs enable the backrest and footrest to move independently from one another so that a variety of positions can be reached. Depending on model, the footrest and back may move independently of each other to further achieve infinite positions.

### TRENDELENBURG POSITION

The Trendelenburg position, available on the LC-525, SR-525 and LC-580 elevates one's feet higher than his or her head for increased comfort and relaxation.

### ZERO GRAVITY POSITION

Lifted • Seated • Reading  
• Napping • Relaxing • Sleeping  
• Trendelenburg • Zero gravity

The zero gravity position, which can be reached on infinite-position Pride® Lift Chair models, positions one's thighs and lower legs higher than his or her torso.
