Wireless remote shown with Oasis Collection LC-380 in UltraLeather™ Garnet

WIRELESS REMOTE

• Used by the occupant of the chair, the wireless remote works similarly to a TV remote, performing all the functions as the wired hand controller (lifted, seated, TV and full recline)
• May be worn around the neck on a retractable lanyard for convenience and easy access
• Operates within a range of the power lift chair, up to 25 feet
• Provides peace of mind and ease of use if your wired hand controller is out of reach
• Safety feature locks and unlocks the wireless remote to prevent chair movement
• Available options for LC-380, LC-358PW, LC-358S, LC-358M, LC-358L and NM-435LT
