When choosing the perfect Pride Mobility Lift to meet your specific needs, consider the following:

► Interior Lifts
  • Provides your mobility device with protection and enclosure from weather conditions - great options for vans, SUVs and crossover vehicles (CUVs)

► Exterior Lifts
  • Hitch-mounted lift systems are the easiest to install and provide the most vehicle and mobility device applications. Boom style lifts provide increased lifting capacities and are ideal for pick-up trucks

► Vehicle/Home Accessibility Lifts
  • Offers a person lifting solution in the home, vehicle, and/or travel
The Outlander Exterior Lift Series are designed to provide a durable, easy-to-use system to take your power chair or scooter with you. Simple, hitched-based installation that requires little-to-no modification to the vehicle or mobility device and a great lift option for sedans, SUVs, mini-vans, full-size vans and pick-up trucks. Standard features include integrated license plate bracket, LED puddle light for ease of use at night, LED on/off indicator light, on/off key switch, drive on/off platform, manual override with tool kit, hardwire kit and phosphate undercoating for weather resistance.

**Outlander Full Platform**

**FEATURES AND BENEFITS**
- 350 lb. lifting capacity
- Compatible with Class II, III, or IV hitches
- Adjustable wheel chocks (tire stops that can be adjusted to wheelbase of PMD)
- Ideal for mobility scooters and power wheel chairs
- Standard hardwire kit

**Outlander XL**

**FEATURES AND BENEFITS**
- 350 lb. lifting capacity
- Integrated scooter lockdown arm
- Compatible with Class III or IV hitches
- Ideal for larger scooters
- Standard hardwire kit
The Outlander TM Exterior Lift was specifically designed with travel mobility scooters in mind for an easy-to-use power operated lift to take your travel mobility scooter with you. The open platform reduces the overall weight of the lift system to increase compatibility with Class II hitches. The lift features an integrated automatic scooter lockdown arm designed to provide a secure self-locking mechanism for compatible mobility scooters. Simple, hitch-based installation requires little to no modification of your vehicle and allows for easy removal.

FEATURES AND BENEFITS

• 350 lb. lifting capacity
• Integrated scooter lockdown arm
• Compatible with Class II, III, or IV hitches
• Ideal for small to mid-size 3 and 4-wheel mobility scooters
• Standard hardwire kit

• 150 lb. lifting capacity
• Compatible with Class II, III, and IV hitches
• LED puddle light for ease of use at night
• Ideal for 3 and 4-wheel travel mobility scooters
• Standard hardwire kit
The **Outlander LP Exterior Lift Series** are low-profile power chair lifts designed specifically for 10” or 14” mid-wheel drive power chairs. Low-profile lifts provide increased visibility while the lift is in use or in the stowed position. The design also provides a shock-absorbing “cradle effect” which protects your power chair while the vehicle is in motion. The power chair hold-down bar provides an automatic secure locking mechanism, multiple levels of adjustment and can be swung to either side of the lift when not in use. The simple hitched-based installation requires little-to-no modification to your vehicle or mobility device and allows for easy removal.

**Outlander LP**

**FEATURES AND BENEFITS**

- 350 lb. lifting capacity
- Compatible with Class II, III, or IV hitches
- Compatible with 10” & 14” mid-wheel drive power chairs
- LED puddle light for ease of use at night
- Toggle switch for ease of up and down use
- LED indicator for On/Off
- Phosphate undercoating for weather resistance
- Standard hardwire kit

**Outlander LP Mini**

**FEATURES AND BENEFITS**

- 250 lb. lifting capacity
- Compatible with Class II, III, or IV hitches
- Compatible with most 10” mid-wheel drive power chairs
- LED puddle light for ease of use at night
- Toggle switch for ease of up and down use
- Phosphate undercoating for weather resistance
- Standard hardwire kit
Backpacker® Interior Lifts are specifically engineered for scooter and power chair transportation, while providing concealment and weather protection for your mobility product. The low-profile, one-piece design, allows for easy loading and unloading of your mobility product – simply drive on and off the all-steel constructed platform. Features include a durable 12-volt motor with easy-to-use two button hand control for simple and reliable operation. Most applications do not require drilling or vehicle modification and include a quick install kit for ease of installation.

**FEATURES AND BENEFITS**

- Engineered for the transportation of scooter and power chairs in minivans and full size vans
- Large 43” usable platform length and 27” product width to accommodate larger mobility devices
- Most applications do not require the removal of the 2nd row seating
- 350 lb. lifting capacity
- Adjustable wheel chocks on the platform surface to add extra securement while the vehicle is in motion
- Hardwire kit
The Zeus is an interior boom style lift that is highly adjustable and engineered to fit most vehicles for use with medium to large scooters, travel mobility scooters, manual wheelchairs and/or power chairs. The Zeus enables you to power your mobility device in and out of your vehicle with ease and is easily removable when not in use. The Zeus is available in two models: a 260 lb. lifting capacity and a 440 lb. lifting capacity.

**FEATURES AND BENEFITS**

- Vehicle-tailored fitting kits
- Standard with Docking Device
- Easily removed when not in use and easily transferable from one vehicle to another
- Remote control powered by the vehicle battery (battery pack not available)
- Compatible with All Pride Scooters, Pride & Quantum PWCS (Dependent on Cargo Area)
The **Commander 450** exterior powered boom style lift is the perfect user-friendly lift option for pick-up trucks that provides fast loading and unloading of your mobility device. Standard with a 450 lb. lifting capacity for heavier power chairs and scooters and is available in 2 and 3-axis. This lift delivers maximum durability, ability to lift and lower your mobility device to the ground over the truck’s tailgate or back into the truck bed with ease.

**FEATURES AND BENEFITS**

- 450 lb. lifting capacity
- 2-axis design: Powered up/down and powered in/out
- 3-axis design: Powered up/down, powered in/out, powered adjustable telescoping boom
- Standard single seat post or 4-point seat post carabiner kit
- Coastal community powder coated
- Telescoping mounting brackets
- Complete weather-proof design
- Waterproof push-button hand control
- Compatible with Pride and most Quantum power chairs and scooters
The Milford Person Lift is a highly adaptable and versatile wheelchair or scooter transfer solution. The MPL will use a sling to transfer a person in the seated position, to their vehicle, home, office or while traveling. MPL makes adaptations more cost effective than a ‘conversion’ and can be used in multiple vehicles, removed and re-fitted to a new vehicle. The Milford SmartBase allows users to enjoy mobility everywhere you travel or around the home/office. The MPL can be transferred from your car to the SmartBase Unit and create the perfect mobility lifting solution that is easy to transport, packs away in seconds, has adjustable legs and can travel anywhere, anytime.

FEATURES AND BENEFITS
• 330 lb. weight capacity
• Can be mounted to work for driver and passengers side, front seat transfer and some 2nd and 3rd row transfers
• Standard sling sizes from extra small to extra-large
• Optional amputee, fleece, net, headslings
• Lifts quickly and easily with the touch of a button
• Easily removed when not in use and can be transferred from one vehicle to another
• Vehicle applications are hardwired to vehicle battery
• Emergency switch and optional manual operation

MOUNTING OPTIONS
• Sill bracket & low dash adapter
• Dropped extension arms
• Wall bracket spacers
• Spreader bar covers
Rubber Threshold Ramps provide a durable, safe means of navigating uneven surfaces including small steps and doorways. A hidden dovetail locking system allows for easy installation and incremental ramp height adjustment of up to 4 inches. Modular design makes Pride® Rubber Threshold Ramps a practical and affordable accessibility solution for indoor and outdoor use.

FEATURES AND BENEFITS

- 850 lb. weight capacity
- Meets ADA slope requirements
- Constructed of high-impact recycled rubber for durability and long life
- Seven total pieces
  - ½ increments starting from 1” to 4” height capability
  - 36” of usable space
  - Can be trimmed, cut or notched for a custom fit
- Slip resistant
- Easy to install
- Maintenance-free
ACCESSORIES

Swing-away adaptor

Battery pack

Hitch tube riser
