Choosing the right Pride® Mobility Scooter

When choosing a Pride® Mobility Scooter, specific requirements and conditions can affect your process.

**Indoor maneuverability**
- Travel mobility to mid-size luxury scooters offer enhanced maneuverability

**Stability**
- 4-wheel scooters provide increased stability

**Indoor and outdoor versatility**
- Mid-size and full-size luxury scooters are great for both indoor and outdoor use

**Outdoor capabilities**
- Mid-size and full-size luxury scooters offer excellent outdoor capabilities

**Increased weight capacity**
- Mid-size and full-size luxury scooters provide increased weight capacity

**Easy portability**
- Travel mobility scooters are easy to disassemble, transport and store

**Speed and performance**
- Mid-size and full-size luxury scooters offer increased speed and performance
Performance and Convenience on the Go

Jazzy®

4-WHEEL SCOOTER

Features
• 325 lb. weight capacity
• Feather-touch disassembly permits simple frame separation with only one hand into five Patent Pending, super lightweight pieces for convenient transport
• iTurn Technology™ provides 4-wheel stability with 3-wheel maneuverability
• 38.25” turning radius navigates tight corners and small spaces effortlessly
• Dual motors for added traction in rough terrain
• Standard under seat storage
• Delta tiller with wraparound handles
• Charger port in tiller
• LED lighting package
• USB charger built into the tiller for convenient charging of smart phone and portable devices

### Compliance

1. All shroud panels included.
2. Varies with user weight, terrain type, battery amp-hour (AH), battery charge, battery condition and tire condition. This specification can be subject to a variance of +/- 3%.
3. All shroud panels included.
4. Due to manufacturing tolerances and continual product improvement, this specification can be subject to variance of +/- 10%.
5. Battery weight not included.
6. Deep cycle (AGM or gel cell-type recommended).
7. 18 Ah battery pack weighs 29.5 lbs.
8. Tested in accordance with ANSI/RESNA, WC Vol 2, Section 4 and ISO 7176-4 standards. Results derived from theoretical calculations based on battery specifications and drive system performance. Test conducted at maximum weight capacity.

</table>

1. All shroud panels included.
2. Varies with user weight, terrain type, battery amp-hour (AH), battery charge, battery condition and tire condition. This specification can be subject to a variance of + or - 10%.
3. Battery weight not included.
4. Due to manufacturing tolerances and continual product improvement, this specification can be subject to variance of + or - 3%.
5. Battery pack is 18 lbs. with 3AH batteries.
6. Deep cycle (AGM or gel cell type recommended).
7. 18 AH battery pack weighs 28.5 lbs.
8. Tested in accordance with ANSI/RESNA, WC Vol 2, Section 4 and ISO 7176-4 standards. Results derived from theoretical calculations used on battery specifications and drive system performance. Test conducted at maximum weight capacity.
9. Battery weight may vary based on manufacturer.
10. Width of base (not including seat).
11. Does not account for anti-tip clearance.
12. Includes standard seat weight.
13. Must be billed to Medicare as either a beneficiary requested upgrade with a properly executed ABN, or as an upgrade at no additional charge to the beneficiary.
14. At midframe.
15. Light package.
16. This product is not a medical device and is not intended to assist, treat, diagnose, or alleviate any medical condition or disability.
