Choosing the right Pride® Mobility Scooter

When choosing a Pride® Mobility Scooter, specific requirements and conditions can affect your process.

Indoor maneuverability

• Travel mobility to mid-size luxury scooters offer enhanced maneuverability

Stability

• 4-wheel scooters provide increased stability

Indoor and outdoor versatility

• Mid-size and full-size luxury scooters are great for both indoor and outdoor use

Outdoor capabilities

• Mid-size and full-size luxury scooters offer excellent outdoor capabilities

Increased weight capacity

• Mid-size and full-size luxury scooters provide increased weight capacity

Easy portability

• Travel mobility scooters are easy to disassemble, transport and store

Speed and performance

• Mid-size and full-size luxury scooters offer increased speed and performance

Don’t let a change in mobility affect your lifestyle. Live your best with Pride® Mobility Scooters and enjoy sleek, sporty style in a high-performance package.

With an array of models and colors to choose from, Pride Mobility Scooters make it easier for you to get out there and enjoy life.
Jazzy® Passport

Now available with optional airline-approved travel battery

Performance and Convenience on the Go

Features
• 250 lb. weight capacity
• Maximum speed up to 3.6 mph
• Up to 9.6 miles per charge range
• A compact and lightweight design makes traveling a breeze
• Back seat pocket for extra storage while on-the-go
• Folds in just a few simple steps for effortless transport
• Includes convenient, under seat mesh storage bag, mesh cup holder and 40” lap belt
• Large foot platform to accommodate the user’s comfort
• Specialty foam seat design for extreme comfort

Color Choices
Pewter

Features
• 325 lb. weight capacity
• Feather-touch disassembly permits simple frame separation with only one hand into five super lightweight pieces for convenient transport
• iTurn Technology® provides 4-wheel stability with 3-wheel maneuverability
• 38.25” turning radius navigates tight corners and small spaces effortlessly
• Dual motors for added traction in rough terrain
• Standard under seat storage
• Delta tiller with wraparound handles
• Charger port in tiller
• LED lighting package
• USB charger built into the tiller for convenient charging of smart phone and portable devices

Color Choices
INTERCHANGEABLE SHROUDS
• Pewter
• Sapphire Blue
• Pearl White

Note: Transport of this item on commercial aircraft is subject to federal regulations and airline policy. Please consult your airline prior to your flight to ensure your Jazzy® Passport and its lithium-ion battery are permitted.
**Features**

- #1 for portability
- 300 lb. weight capacity
- One hand feather-touch disassembly
- 18” x 17”, 5-point swivel seat with latch release
- Faster speed up to 3.7 mph
- Compact turning radius 25.5”
- Dual swing-away, under seat storage bins
- Height and width adjustable armrests
- Heaviest piece is only 36 lbs.

**Color Choices**

- Ruby Red
- Sapphire Blue
- Rose Quartz
- Citrine Yellow
- Amber Orange
- Pearl White

**Features**

- 375 lb. weight capacity
- Feather-touch disassembly permits simple frame separation with only one hand into five super lightweight pieces for convenient transport
- CTS Suspension (Comfort-Trac front and rear suspension)
- Up to 12 miles per charge range (3W), 13 miles per charge range (4W)
- Standard under seat storage
- Delta tiller with wraparound handles
- Charger port in tiller
- LED headlight
- Easily charge the batteries on or off the unit
- USB mobile device charging port

**Color Choices**

- Grey Street
- True Blue

Comfort-Trac Suspension (CTS) is the next generation in mobility scooter ride comfort. Pride’s industry-first technology incorporates advanced suspension components for improved absorption over rough surfaces, and a smoother ride experience over various terrains.

Feather-Touch Disassembly

Most Go-Go® Travel Mobility and Pride® mid-size scooters feature Feather-Touch—one-hand disassembly for hassle-free transport and storage.

Patented, intelligent-turning iTurn Technology® offers a 38.25" turning radius to ensure effortless navigation within tight corners and small spaces.

1. All-shield panels included.
2. Varies with user weight, terrain type, battery amp-hour (Ah), battery charge, battery condition and tire condition. This specification can be subject to a variance of (+ or -) 10%.
3. Battery weight not included.
4. Due to manufacturing tolerances and continual product improvement, this specification can be subject to variance of (+ or -) 3%.
5. Battery pack is 18 lbs. with 12AH batteries.
6. Due to manufacturing tolerances and continual product improvement, length, width, turning radius and ground clearance can be subject to variance of (+ or -) 10%.
7.18 Ah battery pack weighs 29.5 lbs.
8. Tested in accordance with ANSI/RESNA, WC Vol.2, Section 4 and ISO 7176-4 standards. Results derived from theoretical calculations based on battery specifications and drive system performance. Test conducted at maximum weight capacity.
9. Battery weight may vary based on manufacturer.
10. Width of base (not including seat).
11. Does not account for anti-tip clearance.
12. Including standard seat weight.
13. Must be billed to Medicare as either a beneficiary requested upgrade with a properly executed ABN, or as an upgrade at no additional charge to the beneficiary.
14. At mid-frame.
15. At lightweight.

The information contained herein is correct at the time of publication; we reserve the right to alter specifications without prior notice. Speed and range vary with user weight, terrain type, battery charge, battery condition and tire pressure. Due to manufacturing tolerances and continual product improvement, length, width, turning radius and ground clearance can be subject to variance of (+ or -) 3%.

</tbody>
</table>

1. All shown panels included.
2. Varies with user weight, terrain type, battery amp-hour (Ah), battery charge, battery condition and tire condition.
3. This specification can be subject to a variance of + or – 10%.
4. Battery weight not included.
5. Due to manufacturing tolerances and continual product improvement, this specification can be subject to a variance of + or – 3%.
6. Battery pack is 18 lbs. with 12Ah batteries.
7. Deep cycle AGM or gel cell type recommended.
8. 18Ah battery pack weighs 29.5 lbs.
9. Based on theoretical calculations based on battery specifications and drive system performance. Test conducted at maximum weight capacity.

The information contained herein is correct at the time of publication; we reserve the right to alter specifications without prior notice. Speed and range vary with user weight, terrain type, battery charge, battery condition and tire pressure. Due to manufacturing tolerances and continual product improvement, length, width, turning radius and ground clearance can be subject to variance of + or – 3%.
