Synergy® Solution®
For the active client, the Solution® has a contoured, wrap-and-lift base designed with high density, high-resiliency (HR) polyurethane foam that redistributes weight away from areas vulnerable to skin breakdown. This, along with a twin-cell gel well, viscoelastic foam layer, 4-way stretch top fabric, pliable urethane fluid resistant inner liner and non-slip bottom, offers pressure management, positioning and long lasting comfort.

Synergy® Solution® 1
The Solution® 1 cushion, with its innovative soft gel top layer, delivers tremendous comfort while providing exceptional pressure management and positioning.

- High density polyurethane foam construction
- Exclusive Wrap and Lift design for proper positioning
- Soft gel top layer for skin protection
- Four-way stretch fluid-resistant upper cover

Synergy® Spectrum®
The Spectrum® takes the wrap-and-lift base design to the next level by providing an extra-deep well and allowing the provider to choose the medium that offers the best pressure management and comfort for the individual client. Choices include the lightweight twin-cell gel or the viscoelastic foam insert. This system provides comfort as well as excellent pressure management and positioning.

Synergy® Simplicity™
The Simplicity™ is a cushion that offers a tremendous amount of comfort plus the health benefits of moderate pressure management and positioning.

- High density polyurethane foam construction
- Exclusive Wrap-and-Lift design for pressure management
- Coccyx and sacral relief
- Four-way stretch fluid-resistant upper cover
- Non-slip base

Synergy® SHAPE
The Synergy® SHAPE back offers superior comfort and pressure management, utilizing dual layer foam construction with Sensus foam layer. Its unique one-hand, one-motion release feature makes removal extremely convenient. The contoured design assists with maintaining proper positioning.

Synergy® Seating System
The Quantum® Synergy® Seating System offers a clean, streamlined appearance and unparalleled ease of adjustment. The seating system's unique design allows for height, width, depth, and back angle adjustments to be made quickly and easily in the field. The Synergy® Seat interfaces with most types of seat and back cushions, and was designed to be the most user-friendly system available today.

Synergy® Manual Recline
The Synergy® Manual Recline combines the unmatched versatility of the Synergy® Seat with an infinite range of recline from 90 to 180 degrees. The dual gas strut design provides the caregiver with assistance through the entire recline motion for smooth comfortable operation. The Synergy® Manual Recline Seat comes standard with a solid curved back pan and a 2 ½” raised pivot point to reduce shear forces.

Synergy® Manual Tilt
The Synergy® Manual Tilt is designed to provide clients with the positioning benefits of a parent/caregiver controlled manual tilt system. The Synergy Manual Tilt features an optional pediatric stroller-type push handle for ease of use and a gas spring assist for maximum support and controlled movement through the tilt motion.

Synergy® TRU-Comfort™
The new Synergy® TRU-Comfort™ seating system provides the benefits of adjustable positioning and pressure management while maintaining a sporty and stylish look. TRU-Comfort’s innovative lumbar and lateral bolsters easily adjust to deliver personalized comfort. The electronics are concealed to give the system a sporty non-medical appearance.

Features
- Easily adjustable and versatile design that can grow with the client
- Easy customization
- Weight capacity of up to 500 lbs.
- Several width and depth adjustment packages ranging from 10” to 24”
- Accepts a wide variety of after-market seats and backs

Features
- Attendant activated recline seat
- 10” - 24” wide / 10” - 24” deep
- 300 lbs. weight capacity
- 180 degrees of recline

Features
- Adjustable widths of 10” - 12”, 12” - 14”, 14” - 16” and 16” - 18”
- Adjustable depths of 10” - 14” and 14” - 16”
- Mercury drive lockout

Features
- Ultra-soft, leather-like cover
- High density HR polyurethane base for long lasting comfort
- Viscoelastic foam top layer to manage pressure, promote proper circulation and provide comfort
- Easily added to TRU-Balance® and other Synergy® seats
- Adjustable lumbar support and lateral bolsters to dial in positioning comfort
- Modular seating components allow use of alternate seating cushions

TB2 Power Tilt
- 55 degrees of tilt
- Lower standard seat-to-floor height
- Simplified width and depth adjustments
- Maintains center of gravity shift
- New safety switches
