Introduction

This form is interactive when viewed with [Adobe Acrobat Reader](#) and may not function correctly if opened with applications other than Acrobat. HCPCS codes provided should not be considered as legal advice and do not guarantee reimbursement. DME providers are responsible for determining the appropriate billing codes when submitting for insurance reimbursement. Payer coding, coverage, and bundling guidelines may apply. All prices are MSRP. Prices, specifications, part numbers, and availability are subject to change without notice. Prices and part numbers as shown are only available when configured as a complete power lift recliner. Please contact technical service for accurate parts ordering. Options noted with "XRef" have multiple possible part numbers based on system configuration. Please see [cross-reference spreadsheet](#) for the XRef part numbers.

Thank you for choosing Pride[®] Mobility Products!

Power Lift Recliner Position Reference

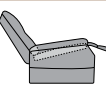

The Grandeur Collection is an Infinite position power lift recliner. The infinite position allows the backrest and footrest to move independently from one another so that a variety of positions can be reached; including TV recline, full recline, zero gravity and trendelenburg positions.

2-Position (TV Recline)

TV recline can be achieved on all Pride Power Lift Recliners. This features elevated footrest and slightly reclined backrest.

3-Position (Full Recline)

Full recline can be achieved on 3-position Pride Power Lift Recliners after fully elevating the legrest. Infinite Position chairs can operate legrest and backrest independently.

Zero Gravity Position

The zero gravity position can be reached with Infinite-Position Pride Power Lift Recliners. This positions one's thighs and lower legs higher than their torso.

True Infinite Position

Infinite-position Pride Power Lift Recliners enable the backrest and footrest to move independently from one another so that a variety of positions can be reached. The infinite position can achieve two, three, infinite, zero gravity and Trendelenburg positions.

Trendelenburg Position

The Trendelenburg position, elevates one's feet higher than his or her head for increased comfort and relaxation.
